Zaag Tech - Multi-Touch X Series Multi-Touch Overlays

True Multi-Touch Support - X Series multi-touch overlays support 6/10/16/32/40 touch points without any ghost points. Unlike other multi-touch technologies, X Series comes with more simultaneous touch points and excellent performance.

Customizable Size Formatting - Customized sizes up to 350"· available upon request, also available unique product shapes. Our top-notch interactive solutions make events, expos and exhibitions much more powerful and effective, across uses in various industries.

Supporting Windows, Mac OS, Linux and TUIO protocol - Zaag Tech overlays are compatible with Windows 7, Mac OS, Linux and TUIO protocol. Customer is free to use any programming language to develop multi-touch apps. Specifically, Zaag Tech overlays, fully support all Mac OS gestures in exactly the same as Magic Trackpad.

Ambient Light Immunity - X Series multi-touch overlays are designed for flawless use in a wide range of environments with ambient light, producing crisp displays both indoors and outdoors.

Low Power Consumption - With single USB connection, it works perfectly even under laptop battery mode.

High Response Rate - The rapid response within 7ms-13ms offers you the best interactive experience, effortless dragging and natural gesture recognition.
